DETAILED ACTION

Specification

The disclosure is objected to because of the following informalities: Several reference numbers in the specification do not correspond with the labels on the drawings. For example, in paragraph [0051] "302" refers to a condenser, however, figure 6 illustrates "336" as the condenser; in the paragraph ""304" refers to a contaminant remover, however, figure 4 illustrates "306" as the contaminant remover; in the paragraph "306" refers to a subcooler, however, figure 4a illustrates "308" as the subcooler.

Appropriate correction of the informalities identified above and any others contained within the disclosure is required.
